

Divito's Heavenly Haven

Our first large area was finished in spring 1998. This was two 1/2 acre areas for the African lions. Since lions live mainly in grasslands, we only allowed a few trees to remain for shade. Both areas have platforms to allow the cats to get up off the ground. This area was made possible by the kind donation from Tony and his family.

TOP: The "pride" enjoying their "jungle gym" on a winter day.

MIDDLE: Zar taking it easy.

BOTTOM: Tasha and Tabby share the platform.
